**Delivering the Future Today**

**Special Plan Rules**
- You may enroll in a Flexible Spending Account only during open enrollment or when you first become eligible. This enrollment covers your pay periods from your effective date through the end of the plan year.
- Once you establish your plan year contribution, you may only change it if you experience a change in status.
- Any amount(s) left in your account(s) at the end of the plan year will be forfeited. If your employer has implemented a "grace period", forfeitures may be eliminated or minimized.
- You may file claims through the run out period as established by the plan as long as the claims were incurred during the plan year.
- If you haven’t enrolled in your employer’s health plan, you can still participate in a Flexible Spending Account. If you or your family members are covered by health insurance elsewhere, you can still claim qualifying out-of-pocket healthcare expenses under the Flexible Spending Account.
- Remember that your expenses must be incurred during your period of coverage. Expenses are considered as having been incurred when you are provided with the healthcare or dependent day care and not when you are formally billed, charged for or pay for the care.

**Change in Status Rules**
Internal Revenue Service (IRS) guidelines may allow you to change your plan contribution during the plan year for one of the following conditions:
- Change in legal marital status (marriage, divorce, legal separation, annulment or death of a spouse)
- Change in number of tax dependents (birth, adoption or death)
- Change in employment status that affects eligibility
- Dependent satisfying or ceasing to satisfy coverage requirements (reaching limiting age, gain/loss of student status, marriage)
- Change in residence that affects eligibility

To apply for a change, you must complete a change-in-election form through your employer’s Human Resources/Benefits department within 30 days of the date of the event.

---

**Dependent Day Care Expense Requirements**
Dependent day care expenses are those that must be incurred to enable you and your spouse, if married, to be gainfully employed. The expenses must be incurred for services received after the effective date of your election and during the plan year to which it applies. The expenses must be for a qualifying individual. This includes a dependent younger than age 13, a spouse, or other dependents who are physically or mentally incapable of self-care and for whom you are entitled to claim as a dependent on your federal tax return.

The dependent day care services must be provided by an eligible dependent day care provider. This includes a licensed day care facility that complies with applicable state and local laws and any individual who is not a tax dependent of yours or a child of yours age 18 or older.

Dependent day care expenses must be for services incurred, not for services to be provided in the future. The annual expense reimbursement may not exceed the lesser of your earned income, if married; your spouse’s earned income; or $5,000 ($2,500 if married, filing separate income tax returns). You must file Form 2441 annually with your individual tax return identifying all your dependent care providers.

**Healthcare Expense Requirements**
Healthcare expenses must be incurred for services rendered after the effective date of your election and during the plan year to which it applies. Each individual, for whom you can incur expenses, generally includes a dependent younger than age 19 or, if older, is a full-time student whom you are entitled to claim as dependent on your federal tax return as well as a spouse or other tax dependents who are physically or mentally incapable of self-care.

All expenses must be for services incurred and already provided, not for services to be provided in the future. In addition, the expenses cannot have been reimbursed and must not be reimbursable by insurance or any other source. You cannot claim the same expenses as a deduction on your annual income-tax return. Other ineligible items include individual insurance premiums, other group insurance premiums and long-term care expenses.

**Questions?**
If you have any questions or wish to obtain your account balance via our IVR system, please call PayFlex at 800.284.4995. Customer service representatives are available 7:00 am - 7:00 pm CST, Monday - Friday.
What is an FSA?
An FSA is a Flexible Spending Account, which is authorized by the IRS and available through your employer. This type of account allows you to set aside money for healthcare and/or dependent care expenses on a pre-tax basis. As you incur healthcare and/or dependent care expenses throughout the year, you may submit a claim for those expenses to get reimbursed with tax-free dollars from your PayFlex account.

A healthcare account reimburses you for out-of-pocket expenses, meaning those expenses that are not covered by your medical, dental, prescription or vision, or vision/medical expenses. These expenses include deductible, copays, coinsurance and certain over-the-counter (OTC) expenses.

The dependent day care account reimburses you for expenses you incur to allow you and, if married, your spouse to work. These expenses include day care, before-and-after school programs, nursery school or preschool, summer day camp and even adult day care.

When you use either one or both of these accounts, you reduce your taxable income so you pay less in income taxes. To see a list of all eligible expense items for either a healthcare or a dependent day care account, visit our website at vanderbilt.payflex.com.

How do I get started?
Your employer has made setting up an FSA simple. During your annual enrollment period, you will be allowed to put aside a portion of your salary on a pre-tax basis. The amount you choose to set aside will be deducted from your paycheck in equal amounts each pay period throughout the plan year. If you decide to enroll in a healthcare and/or dependent day care account, you will need to estimate the amount you will spend on out-of-pocket healthcare expenses and/or dependent day care expenses during the plan year.

When estimating your expenses, please remember that several over-the-counter items such as aspirin or other pain relievers and cold/sinus remedies are also eligible for reimbursement. To assist in estimating your out-of-pocket expenses, use the FSA Planning Worksheet at the right or visit vanderbilt.payflex.com to use our Savings Calculator or to print expense planning worksheets.

How do I get reimbursed?
As you incur healthcare and/or dependent day care expenses, you will submit a claim for reimbursement online at vanderbilt.payflex.com or by completing a paper claim and sending to PayFlex by fax or mail. Reimbursements are made on a scheduled basis which is determined by your employer, however you can file claims as often as you would like. Your FSA dollars will be used for reimbursement which will be provided by check or direct deposit into your bank account. You may elect to have your reimbursements deposited directly into your checking or savings account, simply by providing your account information online via the Direct Deposit link at vanderbilt.payflex.com.

How do I submit a claim online?
The process for submitting a claim online using Express Claims is quick, easy and always available.

Simply go to vanderbilt.payflex.com, click on Login and enter your username and password, then click Submit. Select Express Claims located on the left navigation bar, then enter your claim information: type of expense, date of expense, and the amount of expense. To add additional claims, select Add Row. Once you have entered in all of your claims, click Submit. You will have the option to “Fax” or “Upload” your supporting documentation. Uploading your documentation will save paper and will allow PayFlex to process your claim quicker. If you select “Fax”, print and sign the form and fax claim and itemized receipts to 866.932.2567. You will receive an email from PayFlex notifying you when your claim has been processed.

How do I access the balance in my account?
To check the balance in your account, view transactions, or your claim history, go to vanderbilt.payflex.com, click on Login and enter your username and password. Then, click Select for the plan year you wish to view. You will now be able to access your account information.

What if I don’t use all the money in my account? Will I lose it?
Money left in your account at the end of the year is forfeited. However, if your employer has elected to include a “grace period” within your plan, you will be allowed an additional 2 1/2 months after the end of your plan year to use your FSA funds. For example, if your plan year ends on December 31, your employer will allow expenses to be incurred through March 15. You can avoid forfeitures by carefully reviewing your prior year’s expenses and planning only for predictable costs.

In addition, PayFlex has established partnerships with various online vendors to help you spend your FSA dollars more efficiently. Accessible via our website, you can buy items such as glasses, contacts, and eligible over-the-counter medications using your PayFlex™ Card (if available through your employer), or any other major credit card. When using your own credit card, make sure to keep the receipt you receive from your purchase and submit along with a claim form for reimbursement.
